

WHAT HAPPENED? WHAT IS BEING DONE?

South Blount County Utility District is pleased to announce, as of the December 2010 testing period, we are in compliance with all lead and copper testing guidelines. We continue to look for better ways to provide safe and healthy drinking water to our customers.

Customers that participate in South Blount County Utility District lead and copper monitoring receive a free month of water for their participation. Each participant will receive a copy of their results in the mail. Customers may view a copy of a blank result form at the resource home page.
